

Taonga

"Totally Acknowledging Our Next Generation's Abilities"

Education Centre Charitable Trust

3 August 2012

To whom it may concern,

Taonga Education Centre have three Early Childcare Centre's, one supported house, Main office building and one office building sited at the Clendon Community Centre.

Fly busters Pest Control NZ Ltd have serviced our six premises since August 2011. Each centre was provided from Flybuster's with a pest control programme with clear procedures and information on all products used.

The Technical Manager Richard Gribble visited each site to audit all work carried out by their servicemen and updated all relevant correspondence according to the various treatments at each site to ensure their team were compliant in their jobs.

Taonga are very pleased with the prompt service given when we ring with queries or extra services we may require and we have found serviceman Christopher Hall is very courteous and advises what treatments he is doing

We continue to keep Flybuster's to service our pest control of our premises and we are happy with the service they provide.

Taonga has no hesitation in recommending this company to other parties interested in pest control.

Regards

Denise Anderton
